HealthInvestor Awards 2013

Complex care provider
of the year

Badby Park

Badby Park is delighted to have been awarded 'Complex Care Provider of the Year 2013' by *HealthInvestor* Magazine.

The award is recognition of all the hard work the team has put in over the last 12 months to provide the highest quality of care for its residents - individuals living with acquired brain injuries, serious neurological conditions, spinal injuries and complex care needs.

On receiving the award Daniel Kay, Badby Park director and Senior Advisor at Patron Capital, paid tribute to the 150-strong team at the Northamptonshire care facility.

He said: "Over the last 12 months the team has worked hard to deliver a first class service for the residents, meeting often very complex needs.

"This has been confirmed by the fantastic feedback we've had from the families of the people

The judges said:

"Innovative high quality built environment"

"Innovative care delivery to clients with very complex multiple needs – nominated for UKABIF"

"Very user-focused and holistic care"

"Badby Park supports people with some of the most complex and challenging needs. I was particularly impressed by the way in which the staff at Badby Park work to ensure people have appropriate support, but are also enabled to be as independent as possible and to retain as much control over their lives as possible"

in our care. I know they will be as delighted as I am that the team has received this award tonight for all their hard work."

Badby Park was acquired by Patron Capital a year ago when the multi award-winning facility in Daventry, Northamptonshire, called in the pan-European private equity group to help deliver its vision to be a world-class centre of excellence for the treatment of acquired brain injuries, serious neurological conditions and complex care needs.

Set in beautiful parkland the unique facility provides an ideal environment for the rehabilitation and treatment of its residents.

With Patron's support Badby Park will expand its services into new locations in the UK.

Badby Park General Manager Martyn Smythe-Hudson said it was an exciting time for the centre.

He said: "This award is great

news for all of us here at Badby Park as it recognises how we've grown and developed as a team over the last year.

"Providing excellent complex care requires a high degree of dedication, commitment and compassion and I am proud of all of the staff. A good team really is the key to great care.

"As Badby grows over the coming years I'm confident that we can maintain and grow our reputation as one of the finest neurological care facilities in the UK."

This is the second high profile award for Badby Park in recent years. The facility won the Pinders Design Award in 2010 and a special mention within the category 'Healthcare Building of the Year' by the Health Investor Awards in 2010 as well as the Inspiration and Innovation Award at the United Kingdom's Acquired Brain Injury Forum (UKABIF).
